

NACC EARLY CHILDHOOD ASSISTANT 2021

Epic College of Technology is offering a program designed by the National Association of Career Colleges (NACC). This program prepares students with the knowledge and skills required to work as Early Childhood Assistants in childcare and early learning centers. It also trains students to effectively support the emotional, physical, and educational development of children in professional settings. Students will participate in two supervised practicum placements, where they will gain hands-on experience in the field. Upon completion, students will have the foundational skills and practical training needed to pursue a career or further education in Early Childhood Education.

The NACC Early Childhood Assistant program offers students quality education and training delivered by highly experienced professionals. The program teaches students the knowledge and practical skills required to become successful Early Childhood Assistants.
